

HAWTHORN AVENUE

WILDFIRE

“Wildfire” is a striking debut EP by country duo Hawthorn Avenue. Produced by Nashville native Tommy Harden, Wildfire wears it’s influences proudly whilst retaining an authenticity and freshness that will make you fall in love with a genre so often overlooked in the mainstream.

Although still in their infancy, Hawthorn Avenue have achieved more in 6 months than most bands can say in their lifetime. Born out of a shared love for The Shires, Wandering Hearts and other contemporary country acts, they began work on Wildfire almost immediately and in March they made their live debut at a sold out release show in their hometown of

Swansea. Nothing but praise and acclaim have come their way since, with a selection of tracks from the EP already doing the rounds on radio stations across the country.

From the instance that the titular track and debut single were released to the world Hawthorn Avenue have begun to amass a loyal base of fans, and with huge plans for 2019 and beyond, there is no doubt that this wildfire isn’t going out anytime soon.
